Text:

The Ministry of Panchayati Raj launched the Panchayat Advancement Index (PAI) 2.0 based on data for the financial year 2023–24. This index is a scientific tool designed to evaluate the performance of Gram Panchayats across India. It focuses on the localization of Sustainable Development Goals (SDGs) at the grassroots level, covering themes such as poverty-free villages, healthy villages, child-friendly villages, and water-sufficient villages. PAI 2.0 promotes data-driven governance and encourages healthy competition among Panchayats. The results are also used for determining awards and development grants. This initiative strengthens decentralized governance and improves accountability in rural development programs.
